903	Equipment Operator	\$31.23	2	\$4.52	3	\$20.00	2	\$4.01	3	\$31.23	1	\$11.39	1	\$31.23	1	\$11.39	1

**Notes:**

**Methods:**

- 1 Majority.** If 50% of workers or more within a labor group earn the same wage/fringe benefit, this becomes the prevailing wage/fringe benefit for the labor group in the respective district. If two different wages/benefits each account for 50% for a labor group within a district, a weighted average is performed.
- 2 Significant Minority.** If 30% of workers or more within a labor group earn the same wage, this becomes the prevailing wage for the labor group in the respective district. If two different wages each account for 30% for a labor group within a district, a weighted average is performed.
- 3 Weighted Average.** If no significant minority exists for a wage/fringe benefit, the prevailing wage/fringe benefit is calculated as  $\{[(\text{Total Hourly Wage or Fringe Benefit})/(\text{Number of Workers})] + [(\text{Total Wages Or Benefits Paid})/(\text{Hours Worked})]\}/2$ .
- 4 Moving Average Wage.** If no data is received by the survey for a particular classification or if a lower skilled group has a higher wage/fringe rate than a higher skilled group in the classification of laborers, equipment operators, and/or truck drivers, a moving average wage adjustment is applied according to rules and regulations of the Department of Employment.
